12. Violations. The following penalties apply to violations of subsection 11 ~ SEE FULL CONTEXT
Examples of Prohibited Consumer Fireworks

• **Banned Under Federal Law**: M-80s, Cherry Bombs, Firecrackers containing more than 50mg of powder (aprox. 1/16th of a typical aspirin), Large reloadable shells, Aerial Bombs, Mail Order Kits.

• **M-80s, Cherry bombs, and silver salutes are now illegal in the U.S.** However, manufacturers of legal (1.4G) fireworks continue to name their products things such as "M-80 Firecrackers", "M-8000s", etc., in an attempt to lure buyers into thinking the devices are more powerful than they really are, or have some connection to real M-80s. But they don't - the name is just a marketing gimmick. They're not even close to being as powerful as real M-80s.

• The first step in determining if a firework is real and LEGALLY made is to be aware of what they look like. **M-80s** (illegal) are approximately an inch and a half long, a half inch in diameter, with a red casing and a stiff, short fuse coming out of the side. **Silver Salutes** are basically the same, except they're silver in color and also prohibited.

• **Cherry Bombs** are also illegal and pose the additional hazard of being mistaken for a consumer "smoke ball." Both are about an inch in diameter. Consumer fireworks should have a manufacturer's label and **are required by federal law to have "FIREWORKS UN0336 1.4G" (the UN hazard category for consumer fireworks) printed somewhere on the device.** This is proof to you that it was made in a factory and has been tested and approved for consumer use.

• **Sky Rockets and Bottle Rockets containing MORE THAN 20 GRAMS** of chemical composition are illegal (as prescribed under section 3.7 and Table 4.3-1 of the American Pyrotechnics Association Standard 87-1). These have a wooden stick attached for guidance and stability. Rockets rise into the air upon ignition. A burst of color and/or sound may be produced at or near the height of flight.

• **Missile-Type Rockets**: containing MORE THAN 20 GRAMS of total chemical composition are illegal. These are similar to a sky rocket in size, composition, and effect but use fins rather than a stick for guidance and stability.

• **Helicopter and Aerial Spinners**: A tube containing MORE THAN 20 GRAMS of chemical composition are illegal. They have a propeller blade attached. Upon ignition the rapidly spinning device rises into the air. A visible and / or audible effect may be produced at or near the height of flight.

• **Mortar / Launch Tubes** typically have two or three “stages” in a single load; 1. Lift charge, 2. Reports (bangs), 3. Break charge (colors). These are permissible but **cannot contain MORE THAN 60 GRAMS** of chemical composition for a single load. Launch tubes are usually 1 ¾” or less in diameter.

The commissioner shall charge a fee of $5,000 for the initial license issued to an applicant and $1,500 for each annual license renewal. The term of a license is one year. A separate license is required for each location at which an applicant seeks to sell consumer fireworks. Fees collected under this subsection must be deposited in a nonlapsing account of the Office of the State Fire Marshal to be used for the purpose of enforcing this section.

[ 2011, c. 416, §5 (NEW); 2011, c. 416, §9 (AFF) .]

4. Storage and handling. A person authorized to sell consumer fireworks under subsection 1 may store and sell the fireworks only in a permanent, fixed, stand-alone building dedicated solely to the storage and sale of consumer fireworks in accordance with this subsection.

A. The building must be constructed, maintained and operated, and all consumer fireworks must be stored, in compliance with the requirements of National Fire Protection Association Standard 1124, as adopted by the Office of the State Fire Marshal, relevant building codes, zoning ordinances and other municipal ordinances. [ 2011, c. 416, §5 (NEW); 2011, c. 416, §9 (AFF) .]

6. Advertising. A person may not advertise the sale of consumer fireworks in a way that is misleading about the conditions under which consumer fireworks may be purchased or used or about the requirements of this section. An advertisement for the sale of consumer fireworks must contain the words "Check with your local fire department to see if consumer fireworks are allowed in your community" in a conspicuous location and in a consistent font as approved by the commissioner.

   (1) July 4th;
   (2) December 31st; and
   (3) The weekends immediately before and after July 4th and December 31st. [2011, c. 416, §5 (NEW); 2011, c. 416, §9 (AFF).]

B. A person may use consumer fireworks only on that person's property or on the property of a person who has consented to the use of consumer fireworks on that property. [2011, c. 416, §5 (NEW); 2011, c. 416, §9 (AFF).]

9. Enforcement against licensees. The commissioner, a state law enforcement officer, a municipal law enforcement officer, a code enforcement officer or a fire safety official may petition the Superior Court or District Court to seize or remove at the expense of a licensee consumer fireworks sold, offered for sale, stored, possessed or used in violation of this section. The commissioner may immediately suspend a license granted under subsection 3 for a violation of this section. A person whose license is suspended under this subsection must receive a hearing within 10 days of the suspension under Title 5, chapter 375, subchapter 4. A person whose license is suspended under this subsection may not receive a license under subsection 3 for a period of at least one year from the date of suspension. [2011, c. 416, §5 (NEW); 2011, c. 416, §9 (AFF).]

Such guidelines must be published or approved by the commissioner prior to distribution. [2011, c. 416, §5 (NEW); 2011, c. 416, §9 (AFF).]
